This document includes four major sections: Introductory, Organizational, Financial and Informational. The Introductory Section includes this Executive Summary and a listing of school board members and cabinet-level administrators. The Organizational Section provides an overview of the district's goals and objectives, as well as planning activities and policies that support the budgeting process. The Financial

Section is the formal presentation of budgeted revenues and expenditures with comparative data. Finally, the Informational Section includes multiple tables with supporting and historical financial data.

Organizational Section

The Organizational Section of this document includes a discussion of the structures and policies that support the annual budget. These include the district's organizational chart, budget and financial policies, the mission and goals of the district, and the processes that support budget development and management.

Organizational Structure

The district's organizational structure includes an elected Board of Education (seven members), who select the Superintendent. The Superintendent is supported by six senior administrators: Chief of Staff, Chief Financial Officer, Deputy Superintendent, Chief Information and Operations Officer, Chief Human Capital Officer, and the Executive Director of Teacher and Leader Effectiveness. The Deputy Superintendent supervises nine Instructional Leadership Directors, who in turn supervise a portfolio of schools, in addition to the Chief Accountability Officer and Chief Academic Officer.

Board Policies

District activities are governed by Board-approved policies and regulations. The Board's Policy Committee reviews all proposals for new or revised policies. Upon approval by the Committee, the policy recommendation is placed on the Board agenda for information, then consent. Policies are routinely reviewed to insure they are consistent with current laws and regulations. The following list summarizes key policies that address the financial activities of the District:

Accounting System – Defines the Oklahoma Cost Accounting System as its required compatibility with the budgetary control system. Also provides approval requirements for journal entries.

Financial Reports and Statements – Defines the periodic financial reporting requirements.

Types of Funds – Establishes separate funds for accounting purposes.

Depository of Funds/Banking Services – Establishes requirements for bidding and investment services.

Purchasing – Defines responsibilities and levels of authority within the Purchasing department.

Solicitation Requirements – Defines requirements for solicitations and competitive procurement.

Expense Reimbursement - Establishes the authority for reimbursing employees for travel expenses.

Audit – Requires an independent annual audit be performed in accordance with Governmental Auditing Standards.

Inventories – Requires an annual inventory of District assets, identifies capitalization thresholds, and identifies individuals responsible for maintaining inventory records.

Budget Transfer Authority – Defines the levels of authority and required approvals for budget transfers.

Statement of Income and Expenditures and the Related Budget Process – Establishes the timeline for preparing the Annual Statement of Income and Expenditures, and for preparing the Annual School District Budget.

Strategic Planning

On January 20, 2016, the TPS Board of Education approved Destination Excellence, the district's new five- year strategic plan. The plan was developed after hundreds of hours of engagement with Tulsa teachers, families, students, community members and administrators. The framework for the plan was developed around the new vision and mission statements:

Tulsa Public Schools is the destination for extraordinary educators who work with our community and families to ignite the joy of learning and prepare every student for the greatest success in college, careers, and life.

Our mission is to inspire and prepare every student to love learning, achieve ambitious goals and make positive contributions to our world.

Destination Excellence describes a bold new vision for public education. This new vision is based on the belief that the entire TPS community must be learners, contributors, and designers for students to be successful. The plan describes each of these components and key performance measures for success, and details how school teams, students, families, communities, and district staff will support the work in each of these areas.

Budget Development and Resource Allocation

The annual budget reflects the work of the District's financial and administrative staff, and various District committees. Preparation of the annual budget begins in January with the development of the Master Financial Calendar. This schedule identifies all major tasks, dates, and persons responsible for activities associated with building the new year budget and year-end processes for the current year. Major activities typically take place beginning in January, and culminate with the approval of the annual budget and the closing of the current fiscal year in June.

Each year, development of the annual budget begins with preparation of the student enrollment forecast and Staffing Plan. Resource planning begins with the development of the student enrollment forecast. This forecast, by grade level and building, forms the basis for staffing assignments, site budget allocations, state aid forecasting, and a host of other items essential for planning. Forecasted membership for 2016-17 reflects a reduction of 680 students, or approximately 1.7%. A summary of actual and forecasted membership appears below:

INTRODUCTORY SECTION: EXECUTIVE SUMMARY

Year	October 1 Student Membership
2004	41,966
2005	42,281
2006	42,169
2007	41,708
2008	41,252
2009	40,846
2010	41,224
2011	40,919
2012	40,252
2013	40,152
2014	39,999
2015	39,451
2016 Forecast	38,771

The Staffing Plan identifies staffing for all school sites by grade level, including teachers, administrators, and support staff. Responsibility for the Staffing Plan and staff allocations reside within the Budget office. The district utilizes a position control system to manage staffing and hiring.

School site budget allocations are developed using a fixed dollar amount per pupil, and these allocations are adjusted for growth (if applicable) based on actual student counts once the school year begins.

Financial Section

The Financial Section provides a detailed presentation of revenues and expenditures for all appropriated funds. Oklahoma law requires that school districts adopt a budget for all appropriated funds prior to July 1 of the new year. The statute also prescribes the format for presentation: Actual previous year (2014-15), Estimated actual current year (2015-16) and Preliminary Budget new year (2016-17). The district’s appropriated funds include the General Fund, Building Fund, Child Nutrition Fund, Bond (Capital Projects) Funds, and Sinking (Debt Service) Fund. The Building and Child Nutrition Funds are combined and identified as Special Revenue Funds.

Summary of 2016-17 revenues and expenditures

Revenue for each of the funds is identified by source, as indicated in the table below:

INTRODUCTORY SECTION: EXECUTIVE SUMMARY

Revenue projections are developed and adjusted as part of the budget development process. Major forecast assumptions include:

- General Fund – Local revenue includes a forecasted 2% growth in the district’s net assessed valuation (NAV), state aid is based on a state level appropriations, and federal revenues reflect estimated allocations and carryover allowances.
- Special Revenue Funds – The Building Fund revenue is also based on the forecasted NAV growth and some remaining one-time funds. Child Nutrition revenue is forecasted based on enrollment and participation projections.
- Capital Projects and Debt Service Funds are projected based on the district’s available bond authorization and the associated debt service obligations.

Likewise, budgeted expenditures for all appropriated funds are summarized in the table below:

Expenditures by Object	General Fund	Special Revenue Funds	Capital Projects Funds	Debt Service Fund	Total Appropriated Funds
Salaries	\$190,532,297	\$17,524,886	\$0	\$0	\$208,057,183

Significant trends and financial changes

The 2016-17 General Fund budget of \$294,848,305 reflects a decrease of \$6,747,970 (2.2%) from the 2015-16 amended budget of \$301,596,275. This reduction is due to a decrease in state appropriations and ongoing state revenue shortfalls. At the state level, funding for common education declined by 2.34% (FY 2017 compared to FY 2016 initial). Looking back to FY 2009 funding at the state level for common education has declined by 4.1%. As state revenue collections continue to fall short of estimate, it is likely that revenue failures will continue into FY 2017.

Informational Section

The Informational Section serves as a reference for the various types of information included within the budget document. These supporting tables are provided to give the reader a broad-based understanding of the District's financial activities and budget.

Student enrollment and trends

As is commonly experienced with urban school district, TPS serves a student population that has declined slowly over the past few years. This trend is expected to continue in FY 2017, with a decline in student population from 39,451 to 38,771. During 2014-15, the student population reflected the diversity of the Tulsa area, with 30% of students identified as Hispanic, 26% Anglo, 26% African American, and 17% Other.

Tax base and long term debt

In March of 2015, voters authorized a general obligation series bond proposal for \$415 million, the largest in the district's history. The authorization provides for the construction and renovation of school facilities, equipment and fixtures, textbooks and classroom materials, and transportation equipment.

Tulsa Public Schools is located primarily within Tulsa County, but also extends into parts of Creek, Osage, and Wagoner counties. The district's 2015 valuation of \$2,324,831,687 reflects an increase of 2.64% from the previous year. The existing debt level equates to a millage rate in the sinking fund of 27.79 mills.

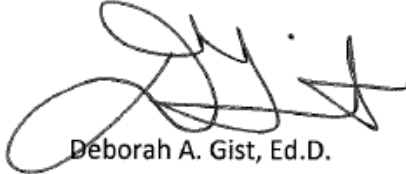

In August of 2016, the district will issue \$34,770,000 in bonds. With this issuance, there will be \$362,730,000 in bonds remaining to be sold from the 2015 authorization. A second bond sale is planned for Spring 2017 of approximately \$27,000,000.

School Board and Administrators

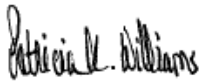

Tulsa Public Schools is governed by a seven member elected Board of Education. Board members serve four year terms. They appoint the Superintendent, who serves as the executive officer of the District. On July 1, 2015 Dr. Deborah A. Gist was named Superintendent of Tulsa Public Schools.

The Preliminary School Budget and Financing Plan is presented to the Board of Education for their consideration, with the understanding that the fund balances, state and federal program allocations, and ad valorem revenues are estimates based on the most current information available. This Plan reflects the work of the Financial Services staff, District administrators, and various committees in responding to the educational needs of the citizens of Independent School District I-1 of Tulsa County and their children.

Significant Budget and Financial Policies

In addition to state and federal law, District activities are governed by Board-approved policies and regulations. The Board's Policy Committee reviews all proposals for new or revised policies. Upon approval by the Committee, the policy recommendation is placed on the Board agenda for information, then consent. Policies are routinely reviewed to insure they are consistent with current laws and regulations. The following list summarizes key policies that address the financial activities of the District:

Accounting System – Defines the Oklahoma Cost Accounting System as its required compatibility with the budgetary control system. Also provides approval requirements for journal entries.

Financial Reports and Statements – Defines the periodic financial reporting requirements.

Types of Funds – Establishes separate funds for accounting purposes.

Depository of Funds/Banking Services – Establishes requirements for bidding and investment services.

Purchasing – Defines responsibilities and levels of authority within the Purchasing department.

Solicitation Requirements – Defines requirements for solicitations and competitive procurement.

Expense Reimbursement - Establishes the authority for reimbursing employees for travel expenses.

Audit – Requires an independent annual audit be performed in accordance with Governmental Auditing Standards.

Inventories – Requires an annual inventory of District assets, identifies capitalization thresholds, and identifies individuals responsible for maintaining inventory records.

Budget Transfer Authority – Defines the levels of authority and required approvals for budget transfers.

Statement of Income and Expenditures and the Related Budget Process – Establishes the timeline for preparing the Annual Statement of Income and Expenditures, and for preparing the Annual School District Budget.

In addition to these specific policies, the District maintains a strong internal and budgetary control system:

Internal Control Structure – District management is responsible for implementing and enforcing a system of internal controls to protect the assets from loss, theft, or misuse and to ensure that reliable accounting data are available for the timely preparation of financial statements in accordance with GAAP. The internal controls structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived and that the valuation of

costs and benefits requires estimates and judgments by management. An evaluation of the internal control structure during the District's most recent annual audit disclosed no material weaknesses.

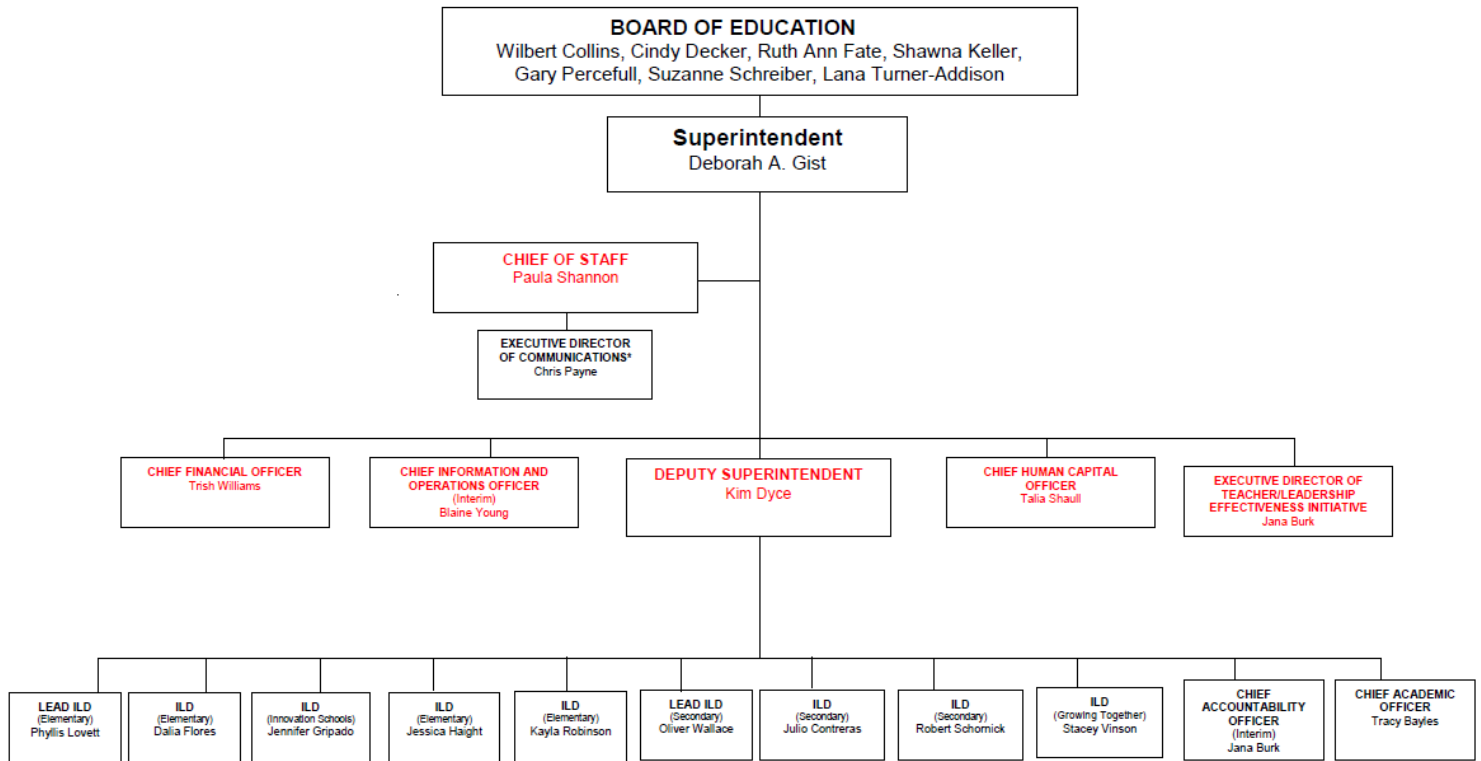

Budgetary Control – The objective of the District's budgetary controls is to ensure compliance with legal appropriation limitations and to provide an operating plan for the District's resources. The annual appropriated budget includes the General Fund, Special Revenue Funds, Capital Improvement Funds, and Debt Services Fund. Preliminary budgets are adopted at the commencement of the fiscal year with periodic amendments approved by the Board of Education. Budgetary control for accounts without a project is generally at the full account level. For accounts within a project the budgetary control is generally maintained by fund, project and site. These appropriated budgets represent the legally adopted fiscal plan of the District. Board of Education approval is required for budgetary transfers totaling \$25,000 and greater. The District utilizes an encumbrance and available funds checking system as budgetary control mechanisms.

In addition to the systematic budgetary control mechanisms described above, monthly financial reports are reviewed with members of the Finance Committee at monthly meetings, and posted on the District's web page.

Strategic Plan: Mission & Vision

During the 2015-16 fiscal year the district embarked on the development of a new strategic plan under the leadership of Dr. Gist, the district's new superintendent. New mission and vision statements provide the framework for this bold new plan, Destination Excellence:

Tulsa Public Schools is the destination for extraordinary educators who work with our community and families to ignite the joy of learning and prepare every student for the greatest success in college, careers and life.

Our mission is to inspire and prepare every student to love learning, achieve ambitious goals and make positive contributions to our world.

The new strategic plan was developed with hundreds of Tulsa teachers, families, students, community members, and administrators who participated in numerous planning sessions. Destination Excellence describes a new vision for public education. This new vision is based on the belief that the entire TPS community must be learners, contributors, and designers for students to be successful. The plan also describes the district values of equity, character, excellence, team and joy.

The plan describes each of these components and key performance measures for success, and details how school teams, students, families, communities, and district staff will support the work in each of these areas. Following the adoption of the new strategic plan, district staff engaged in action planning to identify key strategies and outcomes for the next 5-7 years.

Budget Development

The District’s Preliminary Budget is prepared according to Oklahoma law and is based on accounting for certain transactions within the appropriated funds on the basis of cash receipts, disbursements, and encumbrances. The most significant fund is the General Fund, which, including carryover represents 56% of all budgeted appropriated funds.

The budget reflects the work of the District’s financial and administrative staff, and various District committees. Preparation of the annual budget begins in January with the development of the Master Financial Calendar. This schedule identifies all major tasks, dates, and persons responsible for activities associated with building the new year budget and year-end processes for the current year. Major activities typically take place beginning in February, and culminate with the approval of the annual budget and the closing of the current fiscal year in June.

Each year, development of the annual budget begins with preparation of the student enrollment forecast and Staffing Plan. Resource planning begins with the development of the student enrollment forecast. This forecast, by grade level and building, forms the basis for staffing assignments, site budget allocations, state aid forecasting, and a host of other items essential for planning. Forecasted membership for 2016-17 reflects a reduction of 680 students, or approximately 1.7%. A summary of actual and forecasted membership appears below:

Year	October 1 Student Membership
2004	41,966
2005	42,281
2006	42,169
2007	41,708
2008	41,252
2009	40,846
2010	41,224
2011	40,919
2012	40,252
2013	40,152
2014	39,999
2015	39,451
2016 Forecast	38,771

The Staffing Plan identifies staffing for all school sites by grade level, including teachers, administrators, and support staff. Responsibility for the Staffing Plan and staff allocations reside within the Budget office. The 2016-17 Staffing Plan incorporated numerous staffing changes in response to the state’s revenue shortfalls, which are expected to continue into 2016-17.

At the start of the calendar year, the Budget Department develops the budget and planning calendar for the new year. Once it is finalized, this calendar is distributed to all principals and administrators. During March and April site principals and departmental staff receive budget request forms and instructions.

ORGANIZATIONAL SECTION: BUDGET DEVELOPMENT

These requests are entered directly into the District's financial system. Requests for additional and/or one-time funding are also submitted and evaluated. During this same time, the Revenue Projection Committee meets to review current actual and new year projected revenue levels. Also, Budget Review presentations are made to members of the Executive Staff. Proposals for new funding are reviewed and prioritized by Cabinet. In early June projected revenues are finalized and adjustments are made to balance the budget. After a review by the Superintendent, the required documents and postings are prepared. Finally, the budget is presented to the Board of Education for consideration prior to June 30.

Once the school year begins, administrators and principals review class sizes and school staffing to make any necessary adjustments. School site budget allocations are developed using a fixed dollar amount per pupil, and these budget allocations are also adjusted for growth (if applicable) based on actual student counts once the school year begins.

Capital Planning is conducted by district staff with the assistance of two citizen committees. The Bond Development committee is responsible for assessing and prioritizing capital projects as part of preparation for the citizen vote, which typically occurs every 5-6 years. The Bond Oversight committee meets quarterly to review progress on construction projects throughout the district, and to review budgets for all capital projects. Under the state's Public Competitive Bidding Act, all construction contracts in excess of \$50,000 (and the purchase of school busses) are subject to sealed bid and award by the Board of Education.

Budget Administration and Management

Tulsa Public Schools prepares and presents annual budgets under the Oklahoma School District Budget Act. The Superintendent and Chief Financial Officer direct the preparation of the budget, and submit it to the Board of Education for approval. The Board is required to hold one hearing on the proposed budget within 45 days preceding the start of the budget year. Notice of the date, time and place of the hearing, together with the proposed budget summary, is published in the Tulsa World at least 5 days before the public hearing. The budget is also available upon request from the District's Chief Financial Officer. At the public hearing on the budget, any person may present to the Board comments, recommendations or information on any part of the proposed budget.

Once approved, the budget must be in effect no later than the first day of the fiscal year (July 1) to which it applies. The approved budget is also published on the District's web page and is filed with the office of the Oklahoma State Auditor and Inspector. As adopted, the budget constitutes a formal appropriation for each fund which may not be used for any other purpose except as provided by law.

The District budget is presented by fund and includes the General Fund, Special Revenue Funds (Building and Child Nutrition Funds), Capital Projects Funds, and the Debt Service Fund. Budgetary control for accounts without a project are generally maintained at the full account level. For accounts within a project the budgetary control is maintained by fund, project, and site. The Oklahoma Cost Accounting System (OCAS) specifies the account coding structures for all revenue and expenditure reporting by schools in the state.

The District's financial system provides verification of available funds as purchase requests are made. Generally, the Superintendent or designee may transfer an unexpended and unencumbered appropriation from one account to another within the same fund. Line item transfers that are not original budget items in excess of \$25,000 require Board approval. When the necessity for maintaining any special fund of the District has ceased to exist and a balance remains in the fund, the Board may authorize the transfer of the balance to the General Fund. State law governs the use or transfer of any remaining balance in the Debt Service or Capital Projects funds.

The District generally amends the Preliminary Budget after the prior year has been closed and state aid and federal funds allocations are finalized, and after property tax valuations have been certified for all counties within the District. This amendment usually takes place in February or March of the fiscal year.

Throughout the year, the budget is administered by staff and systems at multiple levels. Administrators and their support staff have full access to budget reporting and purchase requests through the District's financial accounting system. Monthly financial reports and encumbrance reports are prepared and reviewed by staff in the Financial Services division, before being presented to the Board Finance Committee at monthly meetings. Afterward, all monthly financial reports are posted on the District's web page.

State law requires that school districts operate on an encumbrance system. Encumbrances represent financial commitments for unperformed contracts for goods or services. This form of accounting utilizes purchase orders, contracts, and other commitments for the expenditure of District resources to record and reserve that portion of an appropriation. Outstanding encumbrances at year-end are included in the total expenditures for state reporting.
